PROFESSIONAL SUMMARY

Product-focused Software Engineer with 5+ years building scalable web applications and backend services. Skilled at leading cross-functional projects, mentoring junior engineers, and translating business requirements into reliable, well-tested systems. Seeking to bring strong problem-solving skills and a collaborative mindset to a growth-stage product team.

EXPERIENCE

Senior Software Engineer — Nimbus Cloud Systems

Jun 2022 – Present | Bengaluru, India

- Led a team of 4 engineers to redesign the billing microservice, reducing invoice processing time by 40%.
- Architected a real-time analytics pipeline (Kafka, Spark, PostgreSQL) processing 2M+ events daily.
- Introduced automated integration testing, cutting production incidents by 30% quarter-over-quarter.
- Mentored 3 junior engineers through structured code reviews and pairing sessions.

Software Engineer — BrightPath Technologies

Aug 2019 – May 2022 | Pune, India

- Built and shipped RESTful APIs powering a customer-facing mobile app with 500K+ active users.
- Migrated legacy monolith to a containerized microservices architecture using Docker and Kubernetes.
- Collaborated with product and design teams to deliver 15+ feature releases on schedule.

Software Engineering Intern — Sparkline Labs

Jan 2019 – Jul 2019 | Remote

- Developed internal dashboarding tools using React and Node.js, adopted by 3 engineering teams.
- Wrote unit tests that increased code coverage from 62% to 85% for the core reporting module.

EDUCATION

B.Tech in Computer Science — Indian Institute of Information Technology, Pune

2015 – 2019 | CGPA: 8.7/10
